

2021 Pandemic Response Plan

Goals

- To move between levels safely, efficiently, and effectively without the need to cancel school during times of transition.
- To support our faculty & staff as we move between different levels of school operations.
- To always best meet our students' needs to the greatest extent possible.

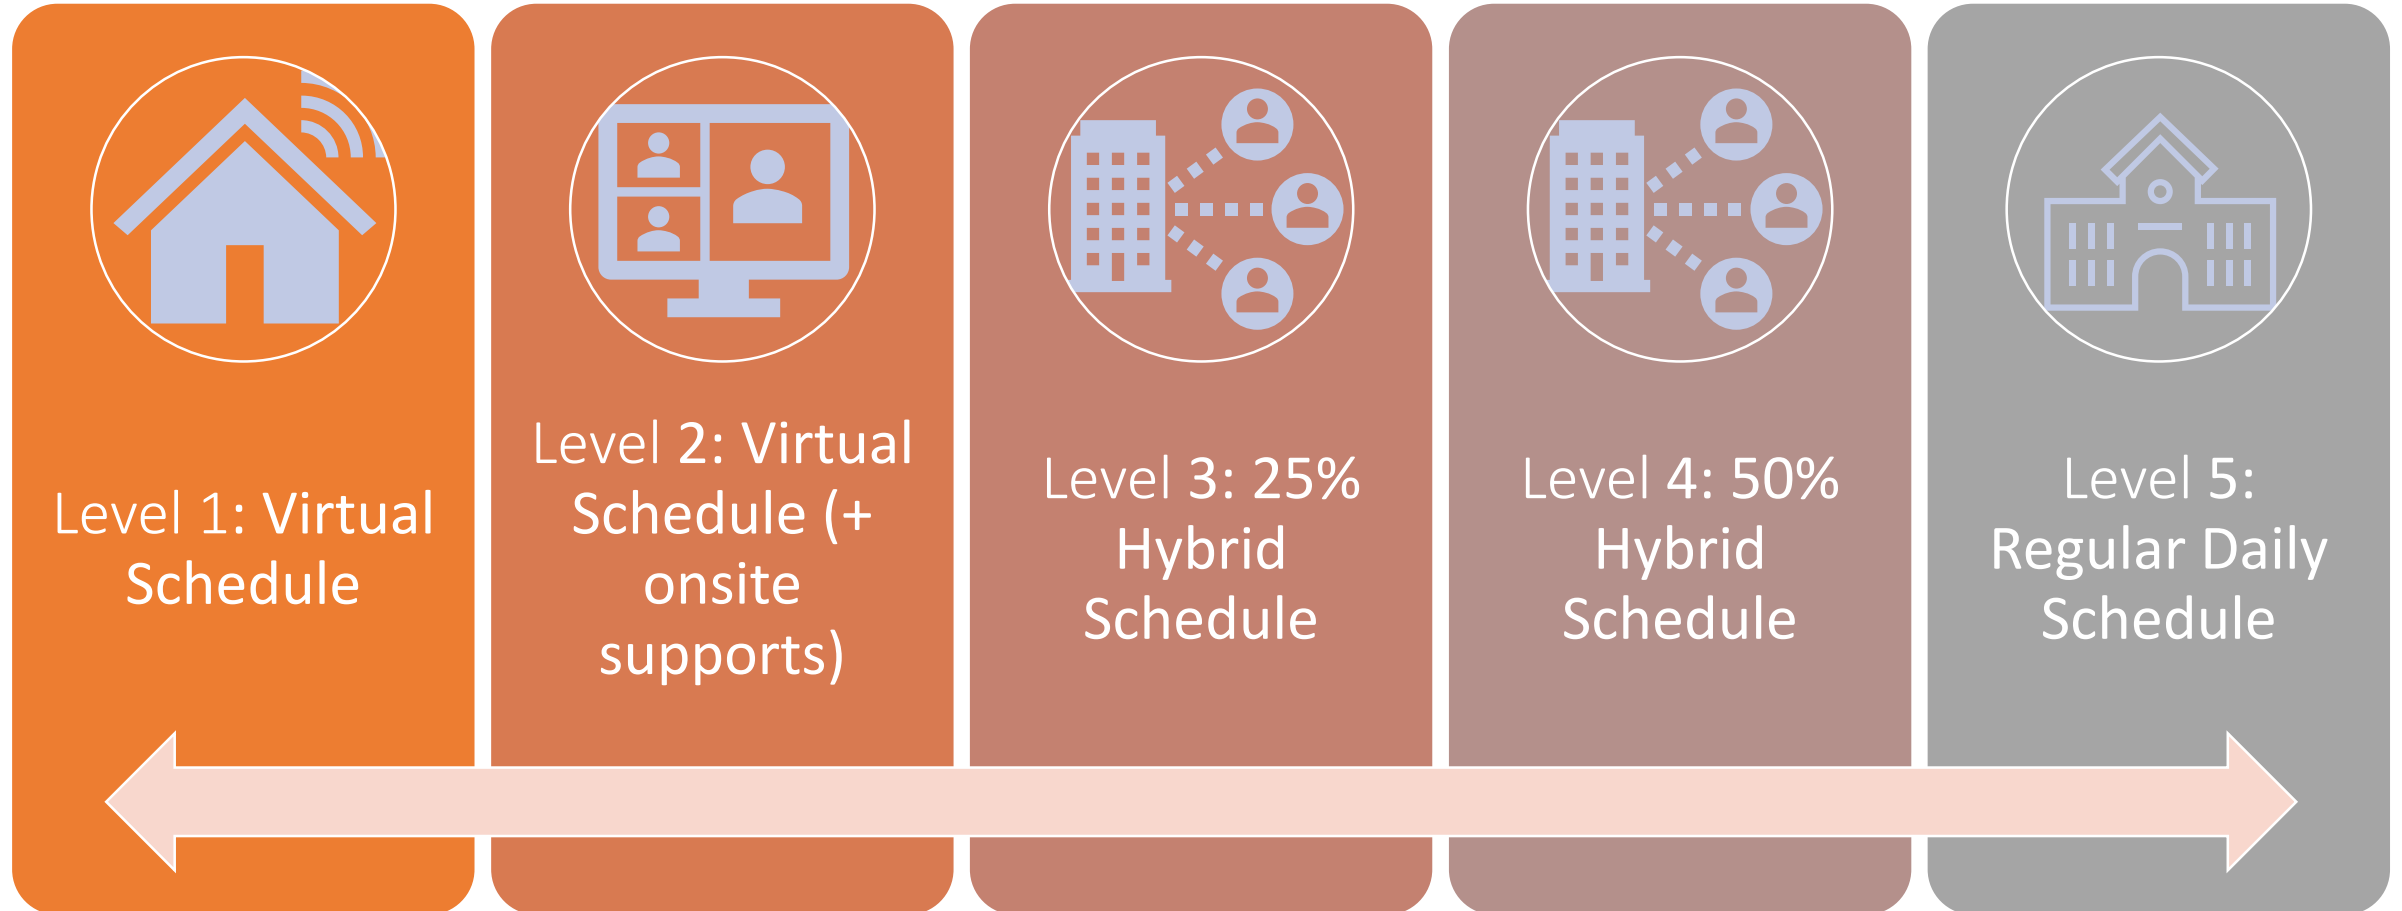

Data/Metrics used in decisions

- These will continue to be a guide and not a hard line as we make decisions. Below are factors that will be considered by the Leadership Team and Academic Leadership Team, who typically monitor this critical information daily to determine what actions, if any, are necessary:
 - Absolute number of internal reports in a rolling 14-day period – includes the total number of reports submitted by students/faculty/staff who:
 - have tested positive for COVID-19, or
 - are presumptive positive (and possibly awaiting test results), or
 - are close contacts with another individual who has tested positive for COVID-19
 - Breadth of cases across grades and pods [applies to Levels 3 & 4 of school operations] – a determination of whether cases are confined to a single pod, or if they are prevalent across multiple pods in schools or large groups.
 - Presence of multiple cases within pods – multiple COVID-19 cases within a cohort even if they are not related or traced back to a single point of transmission.
 - Local Public Health Data in the Chicagoland Area/Student Zip Codes
 - Degree to which staff are affected – an assessment of whether the necessary staff, leadership, and administration are available to continue on-site school operations.
 - No single factor drives the decision to move the school from one level to another. However, it should be noted that the presence of multiple factors at the same time contributes to a higher level of scrutiny and could foreshadow a potential pivot to quarantines and/or remote instruction. In addition, we are in close contact with the Chicago Department of Public Health both for ongoing guidance and to support their contact tracing efforts. In all instances, the decision to move school operations to different levels rests with the school Leadership Teams.

Safety Procedures

- Masks required at all times (provided on campus if needed)
- Social distancing
- Daily health certification checks
- Students in pods of 15 students or less
- Hand sanitizing stations in every classroom and throughout the school
- Air purifiers in common spaces
- Upgraded HVAC measures to circulate external air
- Enhanced cleaning protocols
